Doolla Hari

Senior Frontend Developer

+91 8297782907 | haridoolla36@gmail.com | linkedin.com/in/hari-doolla | doolla-hari.vercel.app

Professional Summary

Senior Frontend Developer with **8+** years of experience developing scalable, high-performance web applications across Healthcare, Telecommunications, Supply Chain, and Data Analytics. Skilled in React.js, TypeScript, JavaScript (ES6+), Redux, HTML5, CSS3, and modern UI libraries. Experienced in designing reusable component architectures, implementing automated testing with Playwright and Jest, optimizing application performance, and maintaining code quality through SonarQube and CI/CD practices.

Technical Skills

Frontend: React.js, JavaScript (ES6+), TypeScript, Redux, React Router, Material UI, HTML, CSS

API & Integration: REST APIs, Postman, Swagger

Backend: Node.js, Express.js

Testing & Code Quality: Jest, Playwright, SonarQube, ESLint, Prettier

Version Control & CI/CD: Git, Bitbucket, Jenkins

Methodologies & Tools: Agile, Scrum, Kanban, Waterfall, Jira, VS Code, Figma

AI-Assisted Development: Claude, Cursor, Lovable

Professional Experience

Gem Source IT Consulting Pvt Ltd — Senior Software Developer, Hyderabad **Oct 2025 – Aug 2026**

- Architected and maintained key frontend features for Aetna's ID Card Excellence platform using React.js, Redux, JavaScript, and React Hooks.
- Engineered reusable UI component libraries and flexible configuration workflows to manage insurance ID card generation and copay structures.
- Established Playwright end-to-end testing suites and SonarQube static code analysis to elevate test coverage, code maintainability, and release confidence.

I Spatial Techno Solutions — Senior Software Developer, Hyderabad **Apr 2024 – Sep 2025**

- Led client-side development and production deployment across multiple enterprise projects utilizing React.js, Redux, and custom UI libraries.
- Designed modular component architectures and responsive layouts while partnering with cross-functional teams to accelerate feature delivery and defect resolution.
- Mentored junior frontend developers in React.js best practices, state management, and modern JavaScript techniques through technical code reviews.

Infosys Limited — Technology Analyst, Bengaluru **Jan 2024 – Mar 2024**

- Completed technical onboarding and domain orientation while awaiting project allocation, gaining exposure to enterprise application architecture and development practices.

Tata Consultancy Services — Systems Engineer, Hyderabad **Nov 2021 – Jan 2024**

- Developed robust React.js web modules integrating Redux, JavaScript, HTML5, CSS3, Material UI, and React Router.
- Built standardized UI component libraries and state management patterns to ensure smooth, responsive user experiences across enterprise applications.
- Enforced code quality standards using SonarQube and aligned development practices with corporate security compliance protocols.

Innova Solutions Pvt Ltd — Software Developer, Hyderabad **Jan 2021 – Nov 2021**

- Engineered core frontend features for client-facing web applications using React.js, JavaScript, HTML5, CSS3, and Redux.
- Collaborated closely with cross-functional development teams to implement UI features, resolve software bugs, and ensure timely deliverables.

Transin Logistics Pvt Ltd — Software Development Engineer, Hyderabad **Sep 2018 – Dec 2020**

- Designed and deployed responsive web interfaces for transporter trip execution and load receipt management integrated with core ERP/finance backends.
- Engineered modular frontend components using React.js, Redux, and Material UI, improving interface load performance across core logistics modules.
- Integrated real-time logistics tracking and government API workflows to ensure accurate, compliant data handling.

Projects

ID Card Excellence — Healthcare | Aetna **Oct 2025 – Aug 2026**

- Technologies: React.js, Redux, JavaScript, TypeScript, Jest, SonarQube, Playwright, MongoDB.
- Developed responsive user interfaces for dynamic insurance ID card generation and custom copay logic.
- Built configurable UI components and override mechanisms to accommodate shifting business rules.
- Integrated Playwright automated testing and SonarQube automated quality gates into the development lifecycle.

Open Data Platform — Data Management & Analytics | iSpatial Techno Solutions **Apr 2024 – Sep 2025**

- Technologies: React.js, Redux, JavaScript, TypeScript, Jest, SonarQube, FileZilla, Drupal..
- Engineered high-performance interfaces for real-time data streaming, dynamic filtering, interactive dashboards, and user feedback.
- Integrated an AI-powered conversational chatbot to enable intuitive, real-time contextual data retrieval.
- Optimized frontend bundle sizes and assets to ensure rapid rendering and smooth user interaction with massive datasets.

ACSS User— Telecommunications | Tata Consultancy Services **May 2023 – Jan 2024**

- Technologies: React.js, Redux, JavaScript, Node.js, Jest, SonarQube, BlackDuck, Sysdig, Jenkins.
- Built automated query submission and credit approval workflow tools for enterprise telecommunications management.
- Implemented state management pipelines to handle region-specific network operator data accurately.
- Created unit tests using Jest and maintained strict SonarQube code quality and coverage thresholds.

Network Circuit Order — Telecom & Infrastructure | Tata Consultancy Services **Aug 2022 – Apr 2023**

- Technologies: React.js, Redux, JavaScript, Node.js, Jest, SonarQube, BlackDuck, Sysdig, Jenkins.
- Designed responsive web interfaces to track global network locations, circuit provisioning, and infrastructural data.
- Created modular client-side components utilizing React.js, Redux.

Vson Portal — User Analytics & Network Security | Tata Consultancy Services **Jan 2021 – Jul 2022**

- Technologies: React.js, Redux, JavaScript, Node.js, Jest, SonarQube, BlackDuck, Sysdig, Jenkins.
- Engineered a comprehensive admin portal for user registration, live network performance statistics, and security audit logs.
- Developed reusable UI component libraries and actively contributed to automated unit testing and code refactoring.

Truce Platform — Freight & Supply Chain Logistics | Transin Logistics Pvt Ltd **Nov 2019 – Dec 2020**

- Technologies: React.js, Redux, JavaScript, Material UI, Node.js.
- Created interactive logistics dashboards for freight booking, real-time load management, and carrier status updates.
- Integrated government E-way Bill APIs and crafted custom UI modules using Material UI.

Simple Load Receipt — Fleet & Transport Management | Transin Logistics Pvt Ltd **Sep 2018 – Dec 2020**

- Technologies: React.js, Redux, JavaScript, Node.js, Material UI, AntD.
- Developed an intuitive web portal allowing fleet transporters to efficiently log, track, and manage trip load receipts.
- Delivered responsive, accessible UI features using React.js, Redux, and modern design frameworks.

Education

Master of Computer Applications (MCA) — 77%

P.B. Siddhartha College of Arts & Science | Vijayawada, Andhra Pradesh | 2015 – 2018

Bachelor of Science (B.Sc.) — 66%

Sri Harshini Degree College | Ongole, Andhra Pradesh | 2012 – 2015
